

Certified Organic Jasmine Infused Green Tea

Instructions

For a refreshing tea, place one sachet of our **Organic Jasmine Infused Green Tea** in a cup or teapot of pure water at approximately 185° F (85° C). This is best achieved by allowing boiling water a moment to cool before introducing the tea sachet. Steep for approximately 3 to 5 minutes and then allow to cool and enjoy. Of course, feel free to vary the amount of water used or modify the brewing time to adjust the strength of the tea. Unlike typical green tea, prolonged brewing will not cause bitterness due to the unique quality of our tea. You can also add ice or refrigerate to make a healthy, delicious and refreshing tea.

Back in 1979, I began making vitamins for my own use when I could find no products that met my high standards for quality, purity and efficacy. These vitamins were never intended to be sold; however, some 30 years later, the same exceptional vitamins I make for my own personal use are the exact same vitamins I share with you through ProCaps Laboratories.

Today, I have created a very small family of products called "**Andrew's Own**" for when, just as with vitamins 30-plus years ago, I make a product for my own use that is worthy of sharing with you. I am excited to introduce another unique member to the **Andrew's Own** family.

Enjoy!

EGCG. Polyphenols. Green Tea's Science.

There is no beverage with a longer history of traditional use than Green Tea. There is also no beverage with more science to support its healthy use than Green Tea. Tradition and science partner perfectly in our **Organic Jasmine Infused Green Tea** to provide a delicious new opportunity to embrace the health benefits of Green Tea. Research has shown that special compounds in Green Tea called Polyphenols deliver its benefits. EGCG (Epigallocatechin Gallate) is the most important of those Polyphenols and is the ongoing focus of extensive anti-aging research. Of course, our **Organic Jasmine Infused Green Tea** delivers high levels of Polyphenols and EGCG, while also being perfectly balanced, providing mild levels of caffeine – less than those found in a weak cup of coffee or cup of black tea.

Exclusively From Fujian, China

We use only Single Region Premium Sencha Green Tea from Organic-Certified gardens in the Fujian Province of China. Fujian Green Tea is the finest Green Tea in China and it is known for its rich, yet mild flavor, which makes it a perfect choice for Americans. Sencha Green Tea is traditionally produced in Japan and is well known for its mild flavor. "Sencha" refers to the absence of grinding the tea leaves, which retains its magnificent flavor and aroma. The capital of Fujian is Fuzhou – a city renowned for its Jasmine, making it the home to China's and our highest quality **Jasmine Green Tea**.

ANDREW'S OWN®

Certified Organic Jasmine Infused Green Tea

Premium Single Region Full-Leaf Green Tea
Traditional Jasmine Infusion • No Blossoms

30 INDIVIDUALLY SEALED TEA SACHETS • NET WT. 2.1 OZ. (60g)

Ancient Tranquility in a Cup

My **Organic Jasmine Infused Green Tea** is made in the traditional way of a bygone era. It is mild and delicious – without a hint of bitterness. Each cup reminds us of a simpler time when tea was brewed with great devotion and enjoyed in complete tranquility.

Traditional Jasmine Green Tea

My **Jasmine Green Tea** is made the old-fashioned way and contains no Jasmine blossoms. Instead, when our Green Tea is ready for drying, we introduce freshly-picked autumn Jasmine flowers to the drying room. As the Jasmine blossoms open, warm air is circulated throughout the room causing the natural Jasmine fragrance to infuse our Green Tea. This process is repeated seven times over several days to achieve the perfect balance and flavor. This is the same centuries-old, traditional method by which the world's finest **Jasmine Green Tea** has been made.

Ingredients

Pure Premium Organic Green Tea from the Fujian province dried traditionally in the presence of the rich fragrance of autumn-harvested Guangxi Jasmine Blossoms.

“Tea,” but not really Tea?

You will notice that we always place quotation marks around the word “tea” when referring to our **Peppermint** “tea.” That is because technically, Peppermint “tea” is not a true tea. It is actually an infusion and although most of us refer to it as an “herbal tea,” it is really not tea at all. Technically for something to be called “tea,” it must come from the Camellia sinensis plant. That plant is responsible for all the green, black, oolong and other varieties of tea. Beverages that are made by infusing other plants are more properly referred to as Herbal Infusions or Tisanes, but no matter what you call it, our **Peppermint** “Tea” is a uniquely refreshing treat.

Peppermint from the Pacific Northwest

Our **Peppermint** is cultivated in the moist, nutrient-rich soil of America’s Pacific Northwest where botanical experts claim the world’s finest organic Peppermint is found. We exclusively use **Premium Full-Leaf Certified Organic Peppermint**, which assures you the freshest flavor and complete peace of mind. Our **Peppermint** is certified free of pesticides, herbicides, fungicides and other added chemicals, flavors and sweeteners. It is unprocessed, so you enjoy all the pure, natural freshness of our exceptional organic **Peppermint** in each natural biodegradable “tea” sachet.

Certified Organic Pacific Northwest Peppermint “Tea”

Premium American Full-Leaf Peppermint
Naturally Caffeine-Free

30 INDIVIDUALLY SEALED “TEA” SACHETS • NET WT. 2.1 OZ. (60g)

Nature’s Freshest Flavor & Fragrance

There are more than two dozen species of plants in the mint family. Peppermint, (Mentha piperita), is a hybrid combination of spearmint and water mint and is, without question, the most popular of all varieties of mint. Traditionally, Peppermint has been used not just for its uniquely fresh aroma and flavor, but also for its soothing properties, particularly for the digestive system. These calming properties have been recognized for thousands of years by diverse cultures around the world. Today, we find Peppermint in everything from breath mints and tooth paste to chewing gum, mouthwash and air fresheners. Peppermint is truly one of Mother Nature’s great gifts and our naturally caffeine-free **Organic Peppermint** makes it easy to see why it has been revered for centuries.

Ingredients

Pure Premium Organic Peppermint from America’s Pacific Northwest.
