CHOLESTACARE™

Natural Cholesterol Management

Natural Plant Sterols
Helps Reduce Total Cholesterol Levels
and LDL Cholesterol Levels

Dietary Supplement

500 EASY-TO-SWALLOW CAPSULES

CHOLESTACARE is an effective, natural formula providing our unique phytosterol blend, designed to support heart health by helping to naturally reduce total and LDL cholesterol levels. Medical experts recognize that total cholesterol and LDL (Low Density Lipoprotein) cholesterol levels are important indicators of our heart disease risk. The FDA has long recognized that phytosterols, like those in **CholestaCare**, provide a natural means of lowering total and LDL cholesterol and thereby supporting heart health. Although naturally present in healthy foods, most Americans do not consume sufficient amounts of plant sterols necessary to reduce their cholesterol levels. On the other hand, most Americans consume foods rich in saturated fats and cholesterol, which can increase total and LDL cholesterol levels and cardiovascular risk. Scientific evidence establishes that adding plant sterols to the diet helps to lower total and LDL cholesterol levels, thereby promoting heart health. *According to the FDA, consuming at least 400 mg of plant sterols twice daily with meals for a daily total intake of at least 800 mg, as part of a diet low in saturated fat and cholesterol, may reduce the risk of heart disease. A capsule of CholestaCare supplies 400 milligrams of plant sterols.* Of course, any intelligent approach to heart health involves more than simply consuming **CholestaCare** and should also include a sensible diet, exercise and weight management under the guidance of a health care professional.

PROCAPS®

Mild • Natural • Non-Bloating
FIBERMUCIL™
Natural Psyllium Fiber in Small Capsules
Rich in Water-Soluble and Bulk Fiber
plus Lactobacillus Friendly Flora

FIBERMUCIL is a pure, encapsulated psyllium husk powder from the high-fiber *Plantago ovata* plant. It contains no additives and provides an unparalleled, natural source of fiber without fiber's typical unpleasant problems. **Fibermucil** is delivered as a gentle, ultra-fine powder in small, easy-to-swallow capsules. Unlike typical fiber products and drinks there are no added colors, flavors, calories or synthetic ingredients. Dietary fiber provides a myriad of health benefits and is often considered the most overlooked ingredient in the American diet. Fiber supports weight loss by providing feelings of fullness. It is also well established that the soluble fiber abundant in Fibermucil is an easy means of supporting healthy cholesterol levels and heart health. Natural **Fibermucil** also acts as a gentle sponge and broom naturally promoting regularity and transit time while cleansing the digestive tract of undigested food, debris, toxins and digestive by-products. Decades of clinical science have consistently proven the extensive health benefits of a fiber-rich diet to all body systems. **Fibermucil** provides a gentle, but powerful source of Mother Nature's best source of dietary fiber without the undesirable ingredients or unpleasant problems associated with typical fiber products.
