POMEGRANATE 40:40 COMPLEX™

Standardized to
40% Punicalagins and 40% Ellagic Acid

Dietary Supplement | **360** Easy-to-Swallow Capsules

POMEGRANATE 40:40 COMPLEX provides a unique, ultra-high potency extract of pomegranate fruit's most beneficial constituents. Pomegranate has long been referred to as the *sacred fruit* and has been used traditionally as a folk remedy for centuries. Pomegranate is an exceptionally rich source of a broad range of uniquely powerful protective compounds. Research regarding pomegranate's benefits has made pomegranate juice and supplements a popular choice. However, the benefits of pomegranate require more than a high-sugar, high-calorie juice or placing some dried pomegranate into a pill. Our **Pomegranate 40:40 Complex** provides an exceptional 40% standardization of pomegranate's two key beneficial compounds: punicalagins and ellagic acid. Sadly, virtually all pomegranate juice and most supplements are not standardized at all. Moreover, some pomegranate is spiked with non-pomegranate ellagic acid making it other than a natural pomegranate product. Our **Pomegranate 40:40 Complex** refers to it being uniquely standardized to contain both 40% ellagic acid and 40% punicalagin. Each easy-to-swallow capsule ensures the highest quality standardized pomegranate extract without any of the sugar, calories, sweeteners, preservatives or other additives typical of pomegranate juice or supplements.
