Mild | Natural | Non-Bloating  
**FIBERMUCIL™**

**Natural Psyllium Fiber in Small Capsules**

**Rich in Water-Soluble and Bulk Fiber  
plus Lactobacillus Friendly Flora**

Dietary Supplement | **360** Easy-to-Swallow Capsules

**FIBERMUCIL** is 100% pure, encapsulated psyllium husk powder from the high-fiber *Plantago ovata* plant. It contains no additives and provides an unparalleled, natural source of fiber without fiber's typical unpleasant problems. **Fibermucil** is delivered as a gentle, ultra-fine powder in small, easy-to-swallow capsules. Unlike typical fiber products and drinks there are no added colors, flavors, calories or synthetic ingredients. Dietary fiber provides a myriad of health benefits and is often considered the most overlooked ingredient in the American diet. Fiber supports weight loss by providing feelings of fullness. It is also well established that the soluble fiber abundant in **Fibermucil** is an easy means of supporting healthy cholesterol levels and heart health. Natural **Fibermucil** also acts as a gentle *sponge* and *broom* naturally promoting regularity and transit time while cleansing the digestive tract of undigested food, debris, toxins and digestive by-products. Decades of clinical science have consistently proven the extensive health benefits of a fiber-rich diet to all body systems. **Fibermucil** provides a gentle, but powerful source of Mother Nature's best source of dietary fiber without the undesirable ingredients or unpleasant problems associated with typical fiber products.
