DIETARY SUPPLEMENT

360 Easy-to-Swallow Capsules

Andrew Lessman's WORLD HEALTH concentrates on the goodness that Mother Nature delivers in the world's healthiest foods. For centuries, certain foods from around the world have been associated with good health, and **World Health** delivers concentrates of fourteen standardized extracts from those foods that have now been scientifically established as providing a multitude of protective and beneficial phytonutrients. **World Health** begins with our unique deodorized *Garlic*, which delivers high levels of *Garlic's* most protective sulfur-based compounds – *Allicin* and *Alliin*. We do so without the odor, stomach upset and unpleasant aftertaste typical of *Garlic* products. We also include the powerful protection of *Cranberry*, which has been used traditionally for centuries and confirmed to promote urinary tract health. **World Health** also contains our exceptional standardized extract of *Green Tea*, which is the most popular and traditional healthy beverage throughout Asia. It is also the most concentrated dietary source of the protective polyphenol *Epigallocatechin Gallate (EGCG)*. In addition, **World Health** delivers standardized extracts of *Bilberry* to support eye health, along with the powerful protective compounds present in extracts of *Red Wine*, *Grape Seed*, *Grape Skin*, *Apple Polyphenols*, *Citrus Bioflavonoids*, *Broccoli* and *Turmeric*. The latter is present as our highly absorbable *Curcumin-Phospholipid Complex*. This comprehensive blend of standardized extracts present in **World Health** is designed to protect our most vital organs and systems from the broadest range of damaging free radicals. Moreover, unlike ordinary products that simply deliver dried fruits, vegetables and spices, our **World Health** provides only exceptional extracts or concentrates that have been standardized to deliver the specific beneficial ingredients you seek.
