COMPLETE TOCOTRIENOLS

with **GAMMA VITAMIN E™**

Comprehensive | Balanced
Natural Vitamin E Complex

Dietary Supplement | **240** Easy-to-Swallow Capsules

Andrew Lessman's COMPLETE TOCOTRIENOLS is the most comprehensive Vitamin E formula possible delivering the full complement of all eight naturally occurring forms of Vitamin E – both the well-known Tocopherols and the hard-to-find Tocotrienols. Our **Complete Tocotrienols** is a naturally balanced formula containing high levels of Vitamin E as Alpha, Beta, Gamma and Delta *Tocotrienol*; as well as Alpha, Beta, Gamma and Delta *Tocopherol*. Our **Complete Tocotrienols** is uniquely balanced to focus on Gamma Tocotrienol and Gamma Tocopherol – the most active and protective forms of Vitamin E. Unfortunately, most Vitamin E supplements ignore Mother Nature's blueprint by delivering Alpha Tocopherol only (often synthetic) and absolutely no Gamma Tocopherol or Gamma Tocotrienol at all. Sadly, most Americans unknowingly use Vitamin E supplements that ignore the research and bear no resemblance to the Vitamin E found in nature. Our **Complete Tocotrienols** is both perfectly comprehensive and ideally balanced focusing on Mother Nature's most beneficial and protective forms of Vitamin E that are sadly, absent from typical Vitamin E supplements. It is difficult to achieve an adequate intake of Vitamin E from foods, but it is even more difficult to find a Vitamin E supplement like our **Complete Tocotrienols** that respects your needs and Mother Nature's clear blueprint.
