ULTIMATE Plant Protein™

A Complete Protein – All Essential & Non-Essential Amino Acids

Non-GMO • Gluten-Free • Dairy-Free • Sugar-Free
Neutral Taste • Soluble • Digestible • Absorbable
No Sweeteners • No Flavors • No Additives

NATURALLY FERMENTED PEA & RICE PROTEIN

Dietary Supplement • 60 Servings • 27.5 oz (1.7 lb) (780 g)

UNFLAVORED

ULTIMATE Plant Protein (UPP) is the result of our decades-long search for the perfect plant-based protein powder. UPP is a neutral-tasting, highly soluble and bioavailable complete protein powder possessing an ideal balance of all essential, non-essential and branched chain amino acids. It is gluten-free, dairy-free, sugar-free, non-GMO and 100% additive-free. It contains no common allergens, sugar, lactose, flavors, saturated fat or cholesterol. UPP's blend of pea and rice protein is gently and naturally fermented by Shiitake mushroom mycelia. This unique fermentation process creates a highly soluble and absorbable protein powder with a mild, neutral taste.

Ultimate Plant Protein's amino acid content mirrors that of whey protein – universally considered to be the highest quality protein source. In other words, UPP is a plant-based protein powder that can meet the most rigorous requirements for protein quality, amino acid composition and bioavailability. Each serving of UPP is almost one-third essential and branched chain amino acids easily supporting even the most demanding fitness, wellness or weight loss regimes. UPP is not just the best choice for vegans, but its purity, solubility, neutral taste, balanced amino acid composition and exceptional bioavailability make it a superior option for anyone seeking an uncompromising protein powder.
