Our small, easy-to-swallow capsules eliminate the additives and upset stomachs of hard-to-swallow multivitamins. We also ensure that all key nutrients are provided in their proper forms and at their most beneficial levels. **Essential One** provides high potencies of Vitamin D3 (2,000 IU), Methyl B12 (100 mcg), along with a complete B-Complex, including our unique 5-Methyl Folate and 40 times more Biotin (for beauty) than the leading brands. We provide *all* of the costly carotenoids; Lutein, Lycopene and Zeaxanthin; along with a dozen other essential nutrients. **Essential One** is gentle even to the most sensitive stomachs providing all the convenience and affordability you seek in a multivitamin without the stomach upset, additives and other problems of large, hard-to-swallow and difficult to digest typical multivitamin tablets.
