**Coenzyme 0-10 (Co010) - 100 mg** Co010 Alpha Lipoic Acid (ALA) - 100 mg Referred for all energy production. It is required at high concentrations in key organs (heart, brain, liver and kidneys) to ensure CoQ10 levels decrease with age, stress, medications, poor diet and even physical activity making supplementation essential.

**Resveratrol – 100 mg** Resveratrol has long been the focus of extensive anti-aging research. It is among the most powerful protective compounds and associated with the extensive benefits of the Mediterranean diet.

Pomegranate (40% Ellagic Acid and **Punicalagins) – 100 mg** Pomegranate has long been referred to as sacred fruit. Unlike pomegranate juice, our formula is standardized to deliver its beneficial compounds without sugar and calories.

is a powerful protective compound required to as the Universal Antioxidant, because it is both water and fat soluble. This allows ALA to protect even hard-to-reach tissues like the brain. ALA promotes the creation optimum function. Despite its importance. of Glutathione, the body's most powerful protective compound. Like CoQ10, ALA declines with age, stress, medications and more making supplementation important.

> Epigallocatechin Gallate (EGCG) - 100 mg EGCG from Green Tea is a powerful protective compound that combines centuries of traditional use with decades of compelling anti-aging and wellness-based research.
