BONE & BODY FACTORS[™]

Ultimate Women's Wellness *plus* Calcium-Magnesium Intensive Care

BONE AND BODY FACTORS economically offers all the benefits of both **Ultimate Women's Wellness** and **Calcium-Magnesium Intensive Care**. For over three decades, **Women's Wellness** has provided the natural hormone balancing benefits of isoflavones from our unique extract of non-GMO soy. **Women's Wellness** offers natural relief from the normal symptoms of perimenopause and menopause, such as hot flashes, night sweats, etc. It can also help with PMS. Soy isoflavones such as genistein or daidzein also promote a healthy skeleton, making them a perfect partner with our **Calcium-Magnesium Intensive Care**, which provides high levels of ultra-soluble forms of Calcium and Magnesium, plus vitamin D3, vitamin C and Boron making it our most comprehensive formula for skeletal health. We also include extracts of green tea and cranberry, as well as cruciferous vegetable extracts providing sulforaphane glucosinolate from broccoli, along with indole-3-carbinol with its protective benefits for breast tissue and estrogen metabolism. We also include the powerful protection of the carotenoids lutein, lycopene and zeaxanthin, which are highly concentrated in vital organs, including the skin, eye, breast and reproductive tissues. We also include our 5-MTHF form of folic acid and our natural methyl B12. In short, **Bone and Body Factors** provides comprehensive hormone, skeleton and vital systems support to women at all stages of life.
