ELITE 100 is an ultra-high-potency version of Andrew Lessman's Complete multi-vitamin formula with the added benefits of botanicals and nutraceuticals. Elite 100 is uniquely pure and contains only the nutrients you desire with no additives of any kind. Elite 100 comes as an ultra-fine powder in small, easy-to-swallow capsules and is guaranteed gentle even to the most sensitive stomachs. It provides all the benefits you seek with none of the problems associated with ordinary multivitamins. **Elite 100 delivers more than 25 nutrients, including high potencies of all essential vitamins, minerals and carotenoids, as well as six vital botanicals and nutraceuticals.** Elite 100 is both the purest and mildest high-potency multivitamin available. It provides 2,000 IU of vitamin D3, along with high levels of all the B-Complex vitamins, including 2,000 mcg of biotin (the beauty vitamin), 250 mcg of our unique methylcobalamin (natural coenzyme B12), pyridoxal 5'-phosphate as B6 and 600 mcg of our unique 5-MTHF (methyl folate). It includes 1,000 mg of non-acidic vitamin C, 400 IU of natural vitamin E, along with the powerful protection of the carotenoids lutein (6,000 mcg), lycopene (6,000 mcg) and zeaxanthin (3,000 mcg). **Elite 100** delivers the nutrients you seek without employing impossible to swallow and difficult-to-digest tablets. We use only easy-to-swallow capsules containing ultra-fine, non-acidic powders to ensure the greatest bioavailability with no risk of stomach upset. Also, unlike typical multi-vitamins that ignore the current science, **Elite 100** is updated constantly to respect both you and the scientific literature.

Elite 100 provides 100 mg each of six vital nutraceuticals and botanicals

Coenzyme Q-10 (CoQ10) is essential for all energy production and also provides unparalleled cellular protection. Required at high concentrations in all key organs (heart, brain, liver and kidneys). CoQ10 levels inevitably and unavoidably decrease with age, stress, medications and even physical activity making supplementation common sense.

Alpha Lipoic Acid (ALA) is the "universal antioxidant" given its fat and water solubility. ALA can protect fragile cellular structures, including those in the liver and brain. ALA promotes glutathione synthesis - the body's most powerful protective compound. ALA levels inevitably and unavoidably decline with age, stress and medications making supplementation common sense.

Resveratrol is a protective polyphenol that has long been the focus of extensive anti-aging research. It is among nature's most powerful protective compounds.

Epigallocatechin Gallate (EGCG) from Green Tea is its most powerful protective compound supported by centuries of traditional use and decades of compelling anti-aging wellness research.

Pomegranate (40% Ellagic Acid and Punicalagins) is considered the sacred fruit. We standardize it to deliver its protective compounds without the sugar and calories of pomegranate juice.

Citrus Bioflavonoids, including Hesperidin and Rutin, are powerful protective compounds from citrus fruit that support healthy circulation and enhance the benefits of Vitamin C.
