RESVERATROL 100™ with OLIVE COMPLEX™

High Potency • Standardized

Resveratrol • Oleuropein • Hydroxytyrosol

RESVERATROL 100 with OLIVE COMPLEX is a unique blend of two powerful protective extracts. Our Resveratrol 100 from *Polygonum cuspidatum* (Japanese Knotweed) provides the key protective molecule in red wine and has been the focus of decades of compelling anti-aging research. Resveratrol supports the health of multiple organs and systems, including the heart, brain, liver, breast and prostate gland. Fortunately, resveratrol is now available from a natural, ultra-concentrated source with each small capsule providing hundreds of times the resveratrol of a glass of wine. **Olive Complex** is our unique extract of the fruit and leaf of European olive trees. Olive trees are among the longest-lived plants on earth with many trees attaining thousands of years of age. Remarkably, these ancient trees still retain their youthful ability to reproduce and bear fruit. The benefits of olive leaf and fruit for the heart, brain and immune system have been recognized by both traditional and modern medicine. We focus on optimum levels of oleuropein and hydroxytyrosol, olive's two most important protective compounds that also provide the unique color and flavor of the finest extra virgin olive oil. Together, our Resveratrol 100 and Olive Complex conveniently and economically provide the very best from Mother Nature and the Mediterranean diet.
